The
WAINWRIGHT STAR

TO CLEAN JEWELRY

A beautiful pair of earrings is a capital of jewelry. It should be clean and of silver jewelry. A few drops of the diamond cleaner on the diamond side of a diamond will clean it. The tag of a diamond is lost, a very good substitute can be made with the diamond cleaner.

egg black ink and milk or cream. Put the gloves on the hands and apply the compound to the soiled parts with a soft brush. Kid shoes may be treated in the same way. Silk should never be ironed on the right side, as it will be shiny wherever the iron touches. Ink stains are much easier removed from goods if after rubbing well with milk of lemon hot water is poured over soiled spot.

GREETINGS

Of the season to one and all. We wish you a prosperous new year.

Hoping to have the continuation of your patronage

TO COAL CONSUMERS

ON ACCOUNT OF THE GREAT DEMAND FOR
Black Diamond Coal
The mine has been hundreds of cars in arrears on its orders. We could not secure enough for our trade. Taking advantage of decreased demand due to warm weather, we are filling our large coal sheds and will be in a position to supply your needs with

Black Diamond Coal

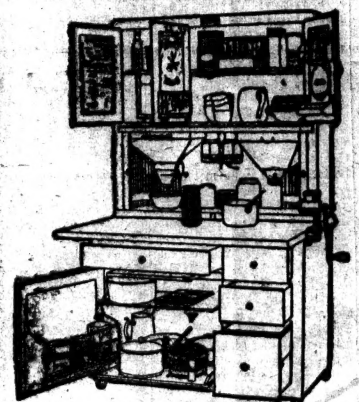

We handle several other kinds of coal such as **PEMBINA EGG** for the kitchen range. **HEADLIGHT**, the cheapest coal in this district. We have a full stock of lumber always on hand. We also handle plans and blue prints. We are always glad to show you our plan books and estimate the cost of any building you need. We extend every courtesy in price and service to returned men.

Fire Insurance

Are your buildings fully protected against fire? Money is scarce, Material is high. You cannot afford to carry the risk on account of the great increase in values, for very few are covered by insurance. We represent strong companies and we know the value of your buildings. You will be surprised how little it will cost to protect you against the loss by fire that might mean your ruin.

WAINWRIGHT IN POWERFUL PHOTOPLAY

Elite New Year's Day

Charming Vivian Martin has a delightful photoplay in her presentation of William J. Locke's famous novel, "Vivette." Excellently produced, every role in the hands of a capable artist, the photoplay of superior merit, the theme of the picture, one of absorbing interest, this splendid Paramount photoplay doubtless will be greeted by large crowds when it is shown at the Elite theatre, Friday and Saturday, Jan. 2 and 3.

Miss Martin portrays the role of a young, impulsive English girl whose charms attract men to her as the flame attracts the moths. When Dick Ware, a primitive Englishman, strong and masterful, declares his love for her, she coquettes with him and then devotes her attention to Dick's brother Austin, and later to Lord Banstead. She dangles the three upon her fingers, sporting with them, loving each in greater or less measure, but in her heart of hearts, the big primitive man's image lingers with increasing affection.

So it happens, that when Dick becomes jealous of her and she haughtily suggests that he fight a make-believe duel with Austin, he carries out her programme with murder in his heart. Fortunately for all concerned, however, a catastrophe is providentially averted and Vivette realizes that she has done a foolish thing. After many scenes of intense interest and not few serious complications, Dick's

strong primitive nature wins her love and both find happiness in their mutual affection.

The picture is a strong one and in Miss Martin's support are several capable players including Eugene Palotta, Harrison Ford, Kate Tonney, Clara Whipple and Donald Blakmore.

DOG COOK IS OUT AGAIN!
PLANS TO SEEK POLE BY AIR

Dr. Frederick Albert Cook, arctic explorer and more recently millionaire oil operator, is completing plans for his aerial dash to the north pole which he says he will try next summer.

"I shall make the slight with six planes," said the explorer, "and endeavor to keep them together until we are within 500 of the Pole. Then I shall go forward in one and leave the rest to form a line of communication with the outside world."

"In April, when the ice breaks up, we shall send up plentiful supplies of fuel and establish stations up to this 500-mile point. In July or August, when we have 12 hours of daylight in the arctic region, we shall 'hop' off."

I often murmur never weep. And always in bed, but never sleep. My mouth is larger than my head, and much discomfort though never fed.

I have no feet, yet swiftly run. The more I talk I get the faster I run.

—A Riddle—
First Professor—In high powered motor car. "We've got it hot!"
Second Professor—"Get it what?"
First Professor—"Perpetual motion, I can't stop!"

BLOOD POISONING

How often lockjaw and blood poisoning result from the neglect of a slight scratch or little cut! Hansen's Wizard Oil is a safe and effective first aid treatment. It is a powerful antiseptic and should be applied immediately to wounds of this kind to prevent danger of infection. It is soothing and healing and quickly drives out pain and inflammation in cases of sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for stiff neck, sore feet, sore arms, swollen joints, scratches and toothaches.

C-O-A-L

There is no getting away from the fact that some coals are better than others. Of the coal mined in the Edmonton district—HUMBERSTONE or TWEN CITY COAL has always held an enviable position due to the fact that they light quickly in the morning, burn a long time at night and produce NO CLINKERS and very little ash. We sell HUMBERSTONE LUMP and TWEN CITY. Then we also handle IMPERIAL NEWCASTLE, the best coal mined at Drumheller, this is a harder coal than the above coals—very hard and brittle in fact the best coal that we have ever had the pleasure of offering to our customers. The majority of the people of this town have found it to be the cheapest and most satisfactory coal they can use. This coal will hold a hot fire longer than any other coal you can get.

We also stock the famous DOBELL COAL, a softer coal than any of the above. This coal is from the old mine and will give you a very quick hot fire. This coal has many friends who insist on having it and none other. We are able to have this coal on hand at all times while the other coals are harder to get.

WE SELL DOBELL LUMP AT \$4.00 PER TON
Give us your coal orders and get real coal satisfaction.

CALGARY HAT WORKS
M. SMITH, MANAGER

In Winnipeg the rule has been that no married woman in the city's employ will be allowed to remain there if her husband is in regular employment. It seems strange that there should be necessity for the making of this rule, especially with so many men, many of them returned soldiers, are out of employment.

For over ten thousand years, fish hooks have been made on the same pattern. Now fish hooks were clothes, how different it would be.

British firms are discharging women employees because they are not able to keep trade secrets. But isn't it too much to expect the sex to be perfect in this particular all at once after generations of the opposite habit?

If You Are a Reader--

of British, American or Canadian papers, magazines or books. Don't delay, send your order at once to the Boston News Co., 1364 4th Ave. W., Calgary, Alta. and we will send you your home paper and favorite magazines. We also take yearly subscriptions.

Boston News Company
Calgary Alberta

In Calgary, December 24, 1910, Christmas holiday was marked by the running of sled races, the playing of football and other outdoor games, and thousands of spectators either came all in real comfort. No one had a part of the world's surface completely covered by snow as in the Arctic circle.

In view of the tremendous cost of frame building construction it is no wonder that to popularize the concrete house. There is no reason why it should not fill the requirements of modern sanitary requirements, be less satisfactory in any way than the frame or brick house. Provided, of course, that all houses thus constructed are not in the hands of unscrupulous contractors.

Two girls were quarrelling. "Oh," said one, "I'm sick of you. I believe you can't help it, though. You're a chauffeur's daughter."

"What?" cried the other girl, frightened. "Is it catching? How does she get it?"

"Oh," said the other, pointing, "through constantly running about people down."
